At least every 3 years should have a face-to-face meeting

Lecturers need to be more active for listeners.

If you could have some kinds of interaction, details examples, exercises... it would be even better for participants to understand and remember the knowledge.

The seminar for motor vehicle insurance management, experience of implementing sales channels and value added services for clients

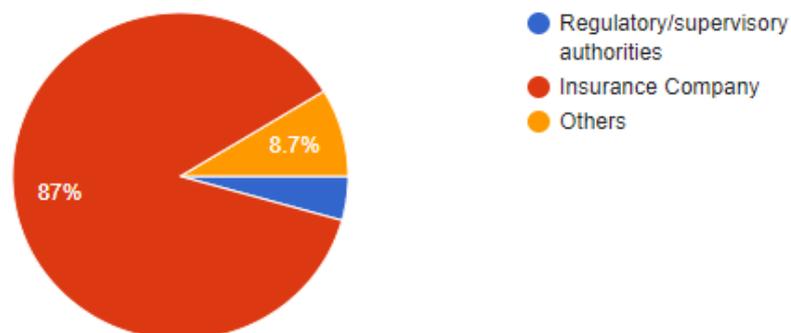

I would like to have more detailed and specific lecture (depending on section - for example: UW, Finance, CLaim...)

By the disease COVID 19, almost the seminar could not be in normal condition, but I think that Live Online Seminar is the best way in this situation
